**For Ruminant and Poultry**

## ABOUT US

Our approach to animal nutrition is built on a combination of long-standing formulation expertise, analytical discipline, and advanced feeding technologies shaped at an international level.

Our production infrastructure in Konya is supported by European technical know-how, particularly advanced feeding technologies originating from Spain. This foundation enables us to develop products that are evaluated not only by their formulation accuracy, but by their consistent and sustainable performance in the field.

Our product range includes both carefully developed standard formulations, proven across different production models, and tailor-made solutions designed to meet specific operational needs. This dual structure allows us to provide flexible and reliable solutions adaptable to diverse market requirements.

In our formulation processes, raw material characteristics, nutrient interactions, and bioavailability are considered as core parameters. All development and production stages are validated through laboratory analysis and rigorous quality control procedures.

Traceability, homogeneity, and process control are maintained at every stage of production, ensuring that each batch meets the same high standard of consistency and reliability.

With our technical infrastructure, field experience, and attention to detail, we operate not only as a manufacturer, but as a solution-driven partner focused on delivering measurable and sustainable results.

# OUR SERVICES

## Premix & Feed Additive Production

Production of performance-driven premixes and feed additive solutions tailored to different animal groups.

## Standard Formulations

Well-established formulations, developed and refined over time, proven across various production systems.

## Custom Formulation Development

Tailor-made solutions designed according to specific operational needs, target performance, and feeding strategies.

## R&D and Formulation Support

Development processes supported by European know-how and advanced feeding technologies.

## Raw Material Selection & Optimization

Strategic selection and optimization of raw materials to ensure consistency, efficiency, and performance.

## Production & Process Management

Controlled production systems focused on homogeneity, traceability, and product stability.

## Private Label Manufacturing

Custom production and packaging solutions under partner-specific branding.

## Technical Consultancy

Field-oriented technical support focused on nutrition, efficiency, and performance improvement.

## Logistics & Supply Continuity

Structured production planning and operational management ensuring reliable and consistent supply.

**Indications / Intended Use:**  
E-S RAX is formulated to support animal health and productivity. The combination of Vitamin E and Selenium acts as a powerful antioxidant system that helps protect cells against oxidative damage. The product supports immune function, improves muscle development, enhances reproductive performance and helps prevent nutritional muscular disorders associated with Vitamin E and Selenium deficiency. Recommended during periods of stress such as vaccination, transportation, environmental changes, disease recovery and rapid growth.

**Target Species:**

Cattle, Sheep, Goats, Poultry

**Dosage and Administration:**

Administer through drinking water or feed.

Poultry: 0.5-1 ml per liter of drinking water

Sheep / Goats: 1-2 ml per animal per day

Cattle: 3-5 ml per animal per day

Use for 3-5 consecutive days or as recommended by a veterinarian.

**Storage Conditions:**

Store in a cool, dry place away from direct sunlight.

Keep container tightly closed.

**Warnings:**

For animal use only.

Keep out of reach of children.

Do not exceed the recommended dosage.

# E-S RAX

VITAMIN COMPLEX

CONTENTS	1 ml
Each 1 ml	
Vitamin E	100 mg
Sodium Selenite	1,5 mg
Excipients up to	1 ml

## PREMIX

- Stronger Development
- Stronger Immunity
- Stronger Growth

**THIS IS A PREMIX, NOT A MEDICINE.  
IT IS NOT INTENDED FOR THERAPEUTIC USE.**

**Indications / Intended Use:**

AD3E Liquid Premix is a vitamin supplement designed to support overall health and productivity in livestock and poultry. The product helps maintain a strong immune system, supports growth and development, improves bone formation, and enhances reproductive performance. It is recommended during periods of stress such as vaccination, transportation, environmental changes, disease recovery, and rapid growth. It also helps prevent deficiencies of Vitamins A, D3 and E.

**Target Species:**

Cattle, Sheep, Goats, Poultry

**Dosage and Administration:**

Administer through drinking water or feed.

Poultry: 1-2 ml per liter of drinking water

Sheep / Goats: 2-3 ml per animal per day

Cattle: 5-10 ml per animal per day

Use for 3-5 consecutive days or as recommended by a veterinarian.

**Storage Conditions:**

Store in a cool, dry place away from direct sunlight.

Keep container tightly closed.

**Warnings:**

For animal use only.

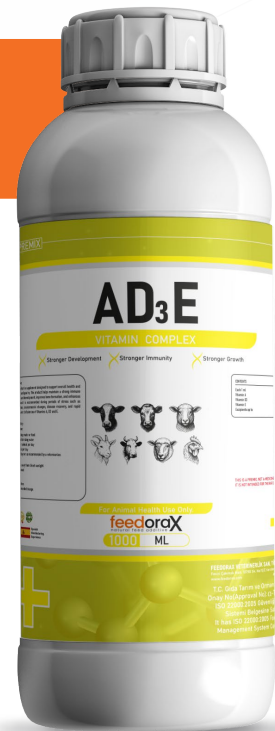

Keep out of reach of children.

Do not exceed the recommended dosage.

# AD<sub>3</sub>E

VITAMIN COMPLEX

CONTENTS	1 ml
Each 1 ml	
Vitamin A	30,000 IU
Vitamin D3	10,000 IU
Vitamin E	10 mg
Excipients up to	1 ml

## PREMIX

- Stronger Development
- Stronger Immunity
- Stronger Growth

**THIS IS A PREMIX, NOT A MEDICINE.  
IT IS NOT INTENDED FOR THERAPEUTIC USE.**

**Indications / Intended Use:**

Respiratory Support Liquid Premix is formulated to help maintain healthy respiratory function in livestock and poultry. The combination of essential oils and Vitamin C helps support the respiratory tract, improve breathing comfort, and assist animals during periods of environmental or management stress. The product is recommended during periods of respiratory challenge, high temperature, transportation, vaccination, or other stress conditions.

**Target Species:**

Cattle, Sheep, Goats, Poultry

**Dosage and Administration:**

Administer through drinking water or feed.

Poultry: 1-2 ml per liter of drinking water

Sheep / Goats: 2-4 ml per animal per day

Cattle: 5-10 ml per animal per day

Use for 3-5 consecutive days or as recommended by a veterinarian.

**Storage Conditions:**

Store in a cool, dry place away from direct sunlight.

Keep container tightly closed.

**Warnings:**

For animal use only.

Keep out of reach of children.

Do not exceed the recommended dosage.

# BRONCRAX

Breathe Easily, Have Strong Lungs

CONTENTS	1 ml
Menthol	20 mg
Thymol Oil	15 mg
Camphor Oil	10 mg
Eucalytus Oil	20 mg
Essential Oils	20 mg
Excipients up to	1 ml

## PREMIX

- Stronger Development
- Stronger Immunity
- Stronger Growth

**THIS IS A PREMIX, NOT A MEDICINE.  
IT IS NOT INTENDED FOR THERAPEUTIC USE.**

**Indications / Intended Use:**

This liquid premix is formulated to provide essential copper and methionine support in livestock and poultry. Copper is important for growth, feather and coat pigmentation, immune function, and enzyme activity. Methionine supports protein metabolism, growth, and overall health. Recommended during periods of growth, dietary changes, stress, or to prevent copper deficiency.

**Target Species:**

Cattle, Sheep, Goats, Poultry

**Dosage and Administration:**

Administer through drinking water or feed.

Poultry: 1-2 ml per liter of drinking water

Sheep / Goats: 2-4 ml per animal per day

Cattle: 5-10 ml per animal per day

Use for 3-5 consecutive days or as recommended by a veterinarian.

**Storage Conditions:**

Store in a cool, dry place away from direct sunlight.

Keep container tightly closed.

**Warnings:**

For animal use only.

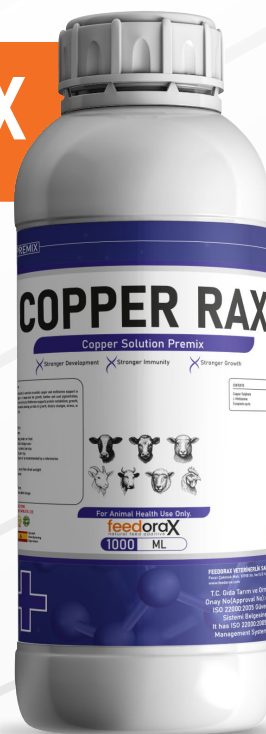

Keep out of reach of children.

Do not exceed the recommended dosage.

**THIS IS A PREMIX, NOT A MEDICINE.  
IT IS NOT INTENDED FOR THERAPEUTIC USE.**

**Indications / Intended Use:**

This liquid premix is formulated to provide rapid energy and essential amino acid support in livestock and poultry. Mono Propylene Glycol, Sorbitol, and Glycerin act as fast-absorbing energy sources, while L-Lysine and L-Methionine support protein metabolism, growth, and overall health. Recommended during periods of stress, high production, dietary changes, or when animals require additional energy and amino acids.

**Target Species:**

Cattle, Sheep, Goats, Poultry

**Dosage and Administration:**

Administer through drinking water or feed.

Poultry: 1-2 ml per liter of drinking water

Sheep / Goats: 2-4 ml per animal per day

Cattle: 5-10 ml per animal per day

Use for 3-5 consecutive days or as recommended by a veterinarian.

**Storage Conditions:**

Store in a cool, dry place away from direct sunlight.

Keep container tightly closed.

**Warnings:**

For animal use only.

Keep out of reach of children.

Do not exceed the recommended dosage.

## PREMIX

- Stronger Development
- Stronger Immunity
- Stronger Growth

**THIS IS A PREMIX, NOT A MEDICINE.  
IT IS NOT INTENDED FOR THERAPEUTIC USE.**

**Indications / Intended Use:**

This liquid premix is formulated to support bone development, mineral balance, and overall growth in livestock and poultry. Vitamin D3 enhances calcium and phosphorus absorption, while essential trace minerals such as manganese, zinc, copper, and cobalt support metabolic functions, skeletal formation, and overall health. Recommended during growth, lactation, egg production, stress periods, or to prevent mineral deficiencies.

**Target Species:**

Cattle, Sheep, Goats, Poultry

**Dosage and Administration:**

Administer through drinking water or feed.

Poultry: 1-2 ml per liter of drinking water

Sheep / Goats: 2-4 ml per animal per day

Cattle: 5-10 ml per animal per day

Use for 3-5 consecutive days or as recommended by a veterinarian.

Chicory Oil	15,000 mg
Nettless Extract	15,000 mg
Betaine HCL	25,000 mg
Choline Chloride	100,000 mg
Magnesium Sulphate	15,000 mg
Sorbitol	400,000 mg
Excipients up to	1L

## PREMIX

- Stronger Development
- Stronger Immunity
- Stronger Growth

**THIS IS A PREMIX, NOT A MEDICINE.  
IT IS NOT INTENDED FOR THERAPEUTIC USE.**

**Indications / Intended Use:**

This liquid premix is formulated to support energy metabolism, growth, immune function, and overall health in livestock and poultry. B-complex vitamins and Vitamin C aid in nutrient utilization, stress management, and reproductive performance, while choline supports liver function and fat metabolism. Recommended during periods of stress, high production, dietary changes, or to prevent vitamin deficiencies.

**Target Species:**

Cattle, Sheep, Goats, Poultry

**Dosage and Administration:**

Administer through drinking water or feed.

Poultry: 1-2 ml per liter of drinking water

Sheep / Goats: 2-4 ml per animal per day

Cattle: 5-10 ml per animal per day

Use for 3-5 consecutive days or as recommended by a veterinarian.

**Storage Conditions:**

Store in a cool, dry place away from direct sunlight.

Keep container tightly closed.

**Warnings:**

For animal use only.

Keep out of reach of children.

Do not exceed the recommended dosage.

# BOOST RAX +

Vitamin B Complex

CONTENTS	1L
Vitamin B1	8,000 mg
Vitamin B2	9,000 mg
Vitamin B3	45,000 mg
Vitamin B5	25,000 mg
Vitamin B6	8,000 mg
Vitamin H	100 mg
Vitamin B12	60 mg
Vitamin C	25,000 mg
Vitamin K3	10,000 mg
Betaine HCL	20,000 mg
Choline Chloride	175,000 mg
Excipients up to	1L

## PREMIX

- Stronger Development
- Stronger Immunity
- Stronger Growth

**THIS IS A PREMIX, NOT A MEDICINE.  
IT IS NOT INTENDED FOR THERAPEUTIC USE.**

**Indications / Intended Use:**

This powder is formulated to provide high-dose Vitamin C support in livestock and poultry. Vitamin C is a potent antioxidant that helps support immune function, reduce oxidative stress, improve growth performance, and enhance recovery during periods of stress or disease. Recommended during heat stress, vaccination, transportation, rapid growth, or when antioxidant support is required.

**Target Species:**

Cattle, Sheep, Goats, Poultry

**Dosage and Administration:**

Mix with feed or dissolve in drinking water according to species and weight.

Poultry: 500-1,000 mg per liter of drinking water

Sheep / Goats: 1-2 g per animal per day

Cattle: 5-10 g per animal per day

Use as directed by a veterinarian.

**Storage Conditions:**

Store in a cool, dry place away from direct sunlight.

Keep container tightly closed.

**Warnings:**

For animal use only.

Keep out of reach of children.

Do not exceed the recommended dosage.

# VIT C %99

Vitamin C Complex

CONTENTS	1 Kg
Vitamin C (Ascorbic Acid)	500,000 mg
Carriers and excipients q.s. to 1 kg	

## PREMIX

- Stronger Development
- Stronger Immunity
- Stronger Growth

**THIS IS A PREMIX, NOT A MEDICINE.  
IT IS NOT INTENDED FOR THERAPEUTIC USE.**

**Indications / Intended Use:**  
 This water-soluble premix is formulated to support intestinal health and control diarrhea in ruminants. It helps maintain gut mucosa integrity, restores electrolyte balance, supports healthy microflora, and provides antioxidant protection during stress, vaccination, dietary changes, or illness. Recommended for prevention and supportive treatment of diarrhea in calves, lambs, kids, and adult ruminants.

**Target Species:**  
 Cattle, Sheep, Goats, Poultry

**Dosage and Administration:**  
 Dissolve the powder in drinking water.  
 -Calves / Lambs / Kids: 5-10 g per liter of drinking water  
 -Adult Ruminants: 10-20 g per liter of drinking water  
 Administer 1-3 times daily for 3-5 consecutive days or as directed by a veterinarian.

**Storage Conditions:**  
 Store in a cool, dry place away from direct sunlight.  
 Keep container tightly closed.

**Warnings:**  
 For animal use only.  
 Keep out of reach of children.  
 Do not exceed the recommended dosage.

## PREMIX

- Stronger Development
- Stronger Immunity
- Stronger Growth

**THIS IS A PREMIX, NOT A MEDICINE.  
IT IS NOT INTENDED FOR THERAPEUTIC USE.**

**Indications / Intended Use:**

This water-soluble premix is formulated to support intestinal health, digestion, and immunity in calves, lambs, and kids. The combination of inactive yeast and MOS promotes beneficial gut microflora, protects against pathogenic bacteria, and supports overall growth and health. Amino acids provide additional nutritional support if included.

**Target Species:**

Calves, Lambs, and Kids

**Dosage and Administration:**

Dissolve in drinking water:

• Calves, Lambs, Kids: 5-10 g per liter of drinking water

Administer 3-5 consecutive days or as recommended by a veterinarian.

**Storage Conditions:**

Store in a cool, dry place away from direct sunlight.

Keep container tightly closed.

**Warnings:**

For animal use only.

Keep out of reach of children.

Do not exceed the recommended dosage.
